Vol. 28, No. 12, December 1982
*Printed in U.S.A.*

# INDEX TO VOLUME 28*

## Authors

ALBIN, S. L., On Poisson Approximations for Superposition Arrival Processes in Queues **(Queues; Approximations; Superposition Arrival Processes)**, 126.

ALLEN, THOMAS J., see LEE, DENIS M. S.

AMIHUD, YAKOV, see MENDELSON, HAIM.

ANEJA, Y. P. and NAIR, K. P. K., Multicommodity Network Flows with Probabilistic Losses **(Networks — Flow; Algorithms/Stochastic)**, 1080.

ARMSTRONG, RONALD D., COOK, WADE D. and SEIFORD, LAWRENCE M., Priority Ranking and Consensus Formation: The Case of Ties **(Utility/Preference — Theory; Utility/Preference — Scaling; Integer Programming — Applications)**, 638.

———, SINHA, PRABHAKANT and ZOLTNERS, ANDRIS A., The Multiple-Choice Nested Knapsack Model **(Programming — Integer Algorithms; Programming — Integer, Applications; Marketing)**, 34.

ASSAD, ARJANG and GOLDEN, BRUCE, A Categorized Bibliography of Survey Articles in Management Science and Operations Research **(Professional; OR/MS Education)**, 425.

ASSAF, D. and LEVIKSON, B., On Optimal Replacement Policies **(Reliability; Optimal Replacement)**, 1304.

ASSMUS, GERT, see HOLTHAUSEN, DUNCAN M., JR.

BAKER, KENNETH R. and VANDER WEIDE, JAMES H., The Bond Scheduling Problem of the Multi-Subsidiary Holding Company **(Corporate Finance; Finance Management)**, 738.

BALLOU, DONALD P. and PAZER, HAROLD L., The Impact of Inspector Fallibility on the Inspection Policy in Serial Production Systems **(Reliability — Inspection; Facilities/Equipment Planning; Reliability — Quality Control)**, 387.

BARABBA, VINCENT P., see MITROFF, IAN I.

BARNUM, DAROLD T., see GLEASON, JOHN M.

BAWA, VIJAY S., Stochastic Dominance: A Research Bibliography **(Stochastic Dominance; Decisions under Uncertainty)**, 698.

BECKMANN, MARTIN J., A Production Function for Organizations Doing Case Work **(Organization Design; Production Functions)**, 1159.

BEN-HORIM, MOSHE and LEVY, HAIM, Inflation and the Trade Credit Period **(Trade Credit Period; Annual Percentage Benefit)**, 646.

BEN-UR, JOSEPH, see SIMON, JULIAN L.

BERKOWITZ, M. K. and HAINES, G. H., Predicting Demand for Residential Solar Heating: An Attribute Method **(Forecasting — Applications; Marketing — New Products)**, 717.

BESSENT, A., BESSENT, W., KENNINGTON, J. and REAGAN, B., An Application of Mathematical Programming to Assess Productivity in the Houston Independent School District **(Mathematical Programming — Applications; Education Systems — Planning; Data Envelopment Analysis)**, 1355.

BESSENT, W., see BESSENT, A.

BITRAN, GABRIEL R. and YANASSE, HORACIO H., Computational Complexity of the Capacitated Lot Size Problem **(Inventory/Production — Capacitated Lot Sizing)**, 1174.

BLACKBURN, JOSEPH D. and MILLEN, ROBERT A., Improved Heuristics for Multi-Stage Requirements Planning Systems **(Material Requirements Planning; Lot-Sizing; Heuristics)**, 44.

BOCTOR, FAYEZ FOUAD, The Two-Product, Single-Machine, Static Demand, Infinite Horizon Lot Scheduling Problem **(Inventory/Production — Deterministic Models; Inventory/Production — Planning Horizons; Production/Scheduling)**, 798.

BOJE, DAVID M. and MURNIGHAN, J. KEITH, Group Confidence Pressures in Iterative Decisions **(Groups; Decision Making; Delphi; Confidence; Accuracy)**, 1187.

BOLDY, DUNCAN, RUSSELL, JOHN and ROYSTON, GEOFF, Planning the Balance of Health and Social Services in the United Kingdom **(Health Care; Government)**, 1258.

BOONSTRA, ANNE, see LEEFLANG, PETER S. H.

BORDLEY, ROBERT F., A Multiplicative Formula for Aggregating Probability Assessments **(Probability; Games/Group Decisions; Multiattribute Utility Theory)**, 1137.

BORSTING, JACK R., Decision-Making at the Top **(Cost/Benefit Analysis; Military-Cost Effectiveness; Professional Addresses; OR/MS Implementation)**, 341.

BOYD, DEAN W., PHILLIPS, ROBERT L. and REGULINSKI, STEPHEN G., A Model of Technology Selection by Cost Minimizing Producers **(Market Share; Energy Modeling)**, 418.

BRACH, PETER and MANSFIELD, EDWIN, Firm's Forecasts of Engineering Employment **(Research and Development; Forecasting — Time Series; Engineering — Applications)**, 156.

BRILL, E. DOWNEY, JR., CHANG, SHOOU-YUH and HOPKINS, LEWIS D., Modeling to Generate Alternatives: The HSJ Approach and an Illustration Using a Problem in Land Use Planning **(Mathematical Programming; Policy Analysis; Planning)**, 221.

BRISKIN, LAWRENCE, Value Added Taxes and Foreign Competition: Communication to the Editor, 1476.

CARDUS, DAVID, FUHRER, MARCUS J., MARTIN, ANNE W. and THRALL, ROBERT M., Use of Benefit-Cost Analysis in the Peer Review of Proposed Research **(Utility/Preference — Scaling; Cost Benefit Analysis; Research and Development — Project Selection)**, 439.

CARLETON, WILLARD J., see McINNES, J. MORRIS.

CARTER, G., see IGNALL, E.

CHALMET, L. G., FRANCIS, R. L. and SAUNDERS, P. B., Network Models for Building Evacuation **(Network Models — Applications; Facilities Planning — Evacuation; Dynamic Flows)**, 86.

CHAND, SURESH and MORTON, THOMAS E., A Perfect Planning Horizon Procedure for a Deterministic Cash Flow Balance **(Cash Balance; Production Planning; Planning Horizons)**, 652.

CHANG, SHOOU-YUH, see BRILL, E. DOWNEY, JR.

CHISMAN, JAMES A., Maximum Sanctified: Communication to the Editor, 451.

CHISMAR, W. and KRIEBEL, C. H., Comment on Modeling the Productivity of Computer Systems **(Input/Output Model; Computer Systems; Service Quality)**, 446.

CLAYTON, EDWARD R., see TAYLOR, BERNARD W., III.

COLLIER, DAVID A., Aggregate Safety Stock Levels and Component Part Commonality **(Inventory/**

Application of Mathematical Programming to Assess Productivity in the Houston Independent School District, An **(Mathematical Programming — Applications; Education Systems — Planning; Data Envelopment Analysis)**, A. BESSENT, W. BESSENT, J. KENNINGTON and B. REAGAN, 1355.
Application of Queueing Theory to Continuous Perishable Inventory Systems, The **(Inventory/Production — Perishable Items; Queues)**, STEPHEN C. GRAVES, 400.
Asymptotic Information, Incentives and Intrafirm Resource Allocation **(Organization Design; Asymmetric Information; Transfer Pricing)**, M. HARRIS, C. H. KRIEBEL and A. RAVIV, 604.
Batching Approach to Quantile Estimation in Regenerative Simulations, A **(Quantile Estimation; Discrete Event Simulation; Regenerative Stochastic Processes)**, ANDREW F. SEILA, 573.
Bond Scheduling Problem of the Multi-Subsidiary Holding Company, The **(Corporate Finance; Finance Management)**, KENNETH R. BAKER and JAMES H. VANDER WEIDE, 738.
Borda-Kendall Consensus Method for Priority Ranking Problems, On the **(Utility/Preference — Theory; Utility/Preference — Scaling; Integer Programming — Applications)**, WADE D. COOK and LAWRENCE M. SEIFORD, 621.
Calculation of Minimum Margin, The **(Investment Management; Finance; Options)**, ANDREW RUDD and MARK SCHROEDER, 1368.
Capital Asset Pricing Model: An Evaluation of Its Potential as a Strategic Planning Tool **(Corporate Planning)**, THOMAS H. NAYLOR and FRANCIS TAPON, 1166.
Categorized Bibliography of Survey Articles in Management Science and Operations Research, A **(Professional; OR/MS Education)**, ARJANG ASSAD and BRUCE GOLDEN, 425.
Centers Within Universities: Management and Evaluation: Communication to the Editor, JAMES G. TAAFFE, 1471.
Comment on Modeling the Productivity of Computer Systems **(Input/Output Model; Computer Sys-**

**tems; Service Quality)**, W. CHISMAR and C. H. KRIEBEL, 446.

Comments on the Development and Application of Linear Learning Models, Some **(Marketing — Buyer Behavior; Marketing — Measurement; Marketing — Pricing)**, PETER S. H. LEEFLANG and ANNE BOONSTRA, 1233.

Common Misinterpretation of Shadow Prices, On a: Communication to the Editor, DAVID RONEN, 1472.

Computational Complexity of the Capacitated Lot Size Problem **(Inventory/Production — Capacitated Lot Sizing)**, GABRIEL R. BITRAN and HORACIO H. YANASSE, 1174.

Confidence Intervals for Steady-State Simulations, II: A Survey of Sequential Procedures **(Simulation; Confidence Intervals; Stopping Rules; Sequential Procedures; Steady-State Simulations)**, AVERILL M. LAW and W. DAVID KELTON, 550.

Cost-Benefit Models for Explaining Consumer Choice and Information Seeking Behavior **(Marketing — Buyer Behavior; Search and Surveillance; Economics)**, BRIAN T. RATCHFORD, 197.

Decision Analysis of Program Choices in Magnetic Fusion Energy Development **(Research and Development — Project Selection; Decision Analysis — Application; Engineering — Applications; Government)**, D. WARNER NORTH and DONALD N. STENGEL, 276.

Decision-Making at the Top **(Cost/Benefit Analysis; Military-Cost Effectiveness; Professional Addresses; OR/MS Implementation)**, JACK R. BORSTING, 341.

Diffusion of Modern Software Practices: Influence of Centralization and Formalization **(Organizational Innovation; Software Development; Organizational Theory)**, ROBERT W. ZMUD, 1421.

Does Divisional Play Lead to More Pennant Races? **(Recreation/Sports)**, WAYNE WINSTON and ASHOK SONI, 1432.

Dual-Based Procedure for Dynamic Facility Location, A **(Facilities/Equipment Planning — Location; Programming — Integer Algorithms, Branch and Bound; Programming — Integer Algorithms, Test)**, TONY J. VAN ROY and DONALD ERLENKOTTER, 1091.

Dynamic Analysis of Consumer Response to Marketing Strategies **(Marketing; Consumer Behavior; Markov Analysis)**, JOHN R. HAUSER and KENNETH J. WISNIEWSKI, 455.

Efficiency of the Antithetic Variate Method for Simulating Stochastic Networks **(Simulation; Antithetic Variates Stochastic Networks)**, ROBERT S. SULLIVAN, JACK C. HAYYA and RONNY SCHAUL, 563.

Efficient Heuristic Algorithms for Positive 0-1 Polynomial Programming Problems **(Programming — Integer Algorithms, Heuristic)**, FRIEDA GRANOT, 829.

Empirical Bayes Estimates of Market Risk, An **(Market Model; Beta Estimation; Market Risk)**, STEVEN F. MAIER, DAVID W. PETERSON and JAMES H. VANDER WEIDE, 728.

Equivalent Objectives for Dynamic Network Flow Problems, Some **(Network Models — Theory; Dynamic Flows)**, JOHN J. JARVIS and H. DONALD RATLIFF, 106.

Erratum to "Innovation Diffusion in a Dynamic Potential Adopter Population" **(Marketing — Buyer Behavior; Health Care — Epidemiology)**, VIJAY MAHAJAN and ROBERT A. PETERSON, 1087.

Exact and Approximate Cost Functions for Product Aggregates **(Inventory/Production; Inventory/Production — Approximations; Inventory/Production — Production Smoothing)**, PAUL ZIPKIN, 1002.

Experimental Comparison of Different Approaches to Determining Weights in Additive Utility Models, An **(Decision Making; Additive Utility Models)**, PAUL J. H. SCHOEMAKER and C. CARTER WAID, 182.

Experimental Study of the Impact of Judgment-Based Marketing Models, An **(Marketing)**, SHELBY H. McINTYRE, 17.

Experimental Study of Performance Information Systems, An **(Performance Incentives; Information Systems; Organization Design)**, ANDREW D. LUZI and KENNETH D. MACKENZIE, 243.

Firm's Forecasts of Engineering Employment **(Research and Development; Forecasting — Time Series; Engineering — Applications)**, PETER BRACH and EDWIN MANSFIELD, 156.

Forecasting Applications of an Adaptive Multiple Exponential Smoothing Model **(Forecasting — Time Series)**, PHILLIP G. ENNS, JOSEPH A. MACHAK, W. ALLEN SPIVEY and WILLIAM J. WROBLESKI, 1035.

Four-Moments Alternative to Simulation for a Class of Stochastic Management Models, A **(Finance — Capital Budgeting; Probability — Distributions; Statistics)**, JOHN F. KOTTAS and HON-SHIANG LAU, 749.

General Class of Holt-Winters Type Forecasting Models, A **(Forecasting — Time Series)**, S. A. ROBERTS, 808.

Geographic Decomposition of the Shortest Path Problem, with an Application to the Traffic Assignment Problem **(Networks/Graphs — Distance Algorithms; Programming — Large Scale Systems; Transportation — Traffic Assignment)**, ZACHARY F. LANSDOWNE and DAVID W. ROBINSON, 1380.

Group Confidence Pressures in Iterative Decisions **(Groups; Decision Making; Delphi; Confidence; Accuracy)**, DAVID M. BOJE and J. KEITH MURNIGHAN, 1187.

Hidden Attributes and the Display of Information in Multiobjective Analysis **(Policy Analysis — Methodology; Multiobjective Decision Making)**, DAVID A. SCHILLING, ARTHUR McGARITY and CHARLES ReVELLE, 236.

Hierarchical Service Location Problem, The **(Facilities Location; Linear Programming — Applications; Covering Problems)**, GEORGE C. MOORE and CHARLES ReVELLE, 775.

Impact of Inspector Fallibility on the Inspection Policy in Serial Production Systems, The **(Reliability — Inspection; Facilities/Equipment Planning; Reliability — Quality Control)**, DONALD P. BALLOU and HAROLD L. PAZER, 387.

Improved Heuristics for Multi-Stage Requirements Planning Systems **(Material Requirements Planning; Lot-Sizing; Heuristics)**, JOSEPH D. BLACKBURN and ROBERT A. MILLEN, 44.

Inflation and the Trade Credit Period **(Trade Credit Period; Annual Percentage Benefit)**, MOSHE BEN-HORIM and HAIM LEVY, 646.

Integrating New Technical Staff: Implications for Acquiring New Technology **(Research and Development; Organizational Studies — Personnel)**, DENIS M. S. LEE and THOMAS J. ALLEN, 1405.

Leadership: Perspectives in Theory and Research **(Leadership; Organizational Behavior)**, ARTHUR G. JAGO, 315.

Learning, Experimentation, and the Optimal Output Decisions of a Competitive Firm **(Learning; Experimentation; Optimal Output Decisions)**, GIORA HARPAZ, WAYNE Y. LEE and ROBERT L. WINKLER, 589.

Longitudinal Analysis of Organizations: A Methodological Perspective, The **(Organizational Studies; Longitudinal Research)**, DANNY MILLER and PETER H. FRIESEN, 1013.

Markovian Decision Model for Deciding How Many Fire Companies to Dispatch, A **(Government Services — Fire; Probability — Markov Decision Models; Simulation — Use in Policy Analysis)**, ARTHUR J. SWERSEY, 352.

Mathematical Model for an Energy Forest, A **(Optimal Control — Lumber/Wood)**, OLAVI HELLMAN, 1247.

Mathematical Programming Approach to Schedule Mas-

ter Slab Casters in the Steel Industry, A **(Programming — Linear, Applications; Production/Scheduling — Cutting Stock; Industries — Steel)**, MARK A. VONDEREMBSE and ROBERT W. HAESSLER, 1450.

Maximum Sanctified: Communication to the Editor, JAMES A. CHISMAN, 451.

Method for the Prescriptive Assessment of the Flow of Information within Organizations, A **(Research and Development; Organizational Studies — Information; Reliability; Communication)**, THOMAS DELEHANTY, PASQUALE SULLO and WILLIAM A. WALLACE, 910.

Mixed Exponential Time Series Model, A **(Time Series Model; Dependent Mixed Exponential Sequence; Mixed Exponential Distribution)**, A. J. LAWRENCE and P. A. W. LEWIS, 1045.

Model of Technology Selection by Cost Minimizing Producers, A **(Market Share; Energy Modeling)**, DEAN W. BOYD, ROBERT L. PHILLIPS and STEPHEN G. REGULINSKI, 418.

Modeling the Pharmacologic Treatment of Hypertension **(Health Care — Treatment; Probability — Stochastic Model Applications)**, LEMUEL A. MOYE and STEPHEN D. ROBERTS, 781.

Modeling to Generate Alternatives: The HSJ Approach and an Illustration Using a Problem in Land Use Planning **(Mathematical Programming; Policy Analysis; Planning)**, E. DOWNEY BRILL, JR., SHOOU-YUH CHANG and LEWIS D. HOPKINS, 221.

MRP Lot Sizing, On **(Networks/Graphs — Applications; Inventory/Production; Material Requirements Planning)**, JOHN O. McCLAIN, WILLIAM L. MAXWELL, JOHN A. MUCKSTADT, L. JOSEPH THOMAS and ELLIOTT N. WEISS, 582.

Multicommodity Network Flows with Probabilistic Losses **(Networks — Flow; Algorithms/Stochastic)**, Y. P. ANEJA and K. P. K. NAIR, 1080.

Multiperiod Resource Allocation with Variable Technology **(Production/Scheduling; Programming — Nonlinear; Production/Scheduling — Work Studies and Learning)**, GARY R. REEVES and JAMES R. SWEIGART, 1441.

Multiple-Choice Nested Knapsack Model, The **(Programming — Integer Algorithms; Programming — Integer, Applications; Marketing)**, RONALD D. ARMSTRONG, PRABHAKANT SINHA and ANDRIS A. ZOLTNERS, 34.

Multiple-Item Inventory Model with a Job Completion Criterion, A **(Inventory/Production; Reliability/Maintenance; Military Logistics)**, STEPHEN C. GRAVES, 1334.

Multiplicative Formula for Aggregating Probability Assessments, A **(Probability; Games/Group Decisions; Multiattribute Utility Theory)**, ROBERT F. BORDLEY, 1137.

Multiplicative Interval Variation of Objective Function Coefficients in Linear Programming **(Programming — Linear, Parametric)**, PATRICK G. McKEOWN and ROLAND A. MINCH, 1462.

Multi-Project Scheduling: Categorization of Heuristic Rules Performance **(Project Management; Research and Development)**, I. KURTULUS and E. W. DAVIS, 161.

Network Models for Building Evacuation **(Network Models — Applications; Facilities Planning — Evacuation; Dynamic Flows)**, L. G. CHALMET, R. L. FRANCIS and P. B. SAUNDERS, 86.

New Results for the M/M/1 Queue, Some **(Queues; Transient Behavior)**, CLAUDE DENNIS PEGDEN and MATTHEW ROSENSHINE, 821.

Nonlinear Optimization by Successive Linear Programming **(Programming — Nonlinear; Programming — Successive Linear; Programming — Approximations)**, F. PALACIOS-GOMEZ, L. LASDON and M. ENGQUIST, 1106.

Nonsequential R & D Search Model, A **(Research and Development; Economics; Dynamic Programming Applications)**, TOM K. LEE, 900.

Optimal Allocation in a Distributed Processing Environment, On **(Distributed Processing; Quadratic Assignment Problem; Warehouse Location; Branch and Bound)**, AMITAVA DUTTA, GARY KOEHLER and ANDREW WHINSTON, 839.

Optimal Consumption Policy under Uncertain Income **(Finance — Consumption; Economics — Utility Theory; Dynamic Programming)**, HAIM MENDELSON and YAKOV AMIHUD, 683.

Optimal and Near Optimal Price and Advertising Strategies for Finite and Infinite Horizons **(Marketing; Advertising Rules)**, ULF PETER WELAM, 1313.

Optimal Repair Kits under a Job Completion Criterion, On: Communication to the Editor, WARREN H. HAUSMAN, 1350.

Optimal Replacement Policies, On **(Reliability; Optimal Replacement)**, D. ASSAF and B. LEVIKSON, 1304.

Optimality of Integer Lot Size Ratios in "Economic Lot Size Determination in Multi-Stage Assembly Systems," On the **(Inventory/Production — Deterministic Models; Production/Scheduling; Assembly Systems)**, JACK F. WILLIAMS, 1341.

Optimizing Field Repair Kits Based on Job Completion Rate **(Inventory/Production; Reliability/Maintenance; Military Logistics)**, JOHN W. MAMER and STEPHEN A. SMITH, 1328.

Optimum Inspection Policies **(Reliability — Inspection; Reliability — Quality Control)**, JOSEPH B. KELLER, 447.

Organizational Information Systems: Determinants of their Performance and Behavior **(Organization Design; Information Systems)**, GEORGE HUBER, 138.

Parametric Mixed Integer Programming: An Application to Solid Waste Management **(Parametric Integer Programming; Facility Location; Solid Waste Management)**, LARRY JENKINS, 1270.

Perfect Planning Horizon Procedure for a Deterministic Cash Flow Balance, A **(Cash Balance; Production Planning; Planning Horizons)**, SURESH CHAND and THOMAS E. MORTON, 652.

Performance of a Regulatory Agency as a Function of Its Structure and Client Environment: A Simulation Study **(Organization Design; Simulation; Informal Organization; Regulatory Agency)**, W. A. THOMPSON, I. VERTINSKY, D. KIRA and F. W. SCHARPF, 57.

Planning the Balance of Health and Social Services in the United Kingdom **(Health Care; Government)**, DUNCAN BOLDY, JOHN RUSSELL and GEOFF ROYSTON, 1258.

Poisson Approximations for Superposition Arrival Processes in Queues, On **(Queues; Approximations; Superposition Arrival Processes)**, S. L. ALBIN, 126.

Police Patrol-Initiated Activities within a Systems Queueing Model **(Government Services — Police; Queues — Applications; Queues — Approximations)**, RICHARD C. LARSON and MARK A. McKNEW, 759.

Policy As Argument: A Logic for Ill-Structured Decision Problems **(Planning — Philosophy of Modeling)**, IAN I. MITROFF, RICHARD O. MASON and VINCENT P. BARABBA, 1391.

Predicting Demand for Residential Solar Heating: An Attribute Method **(Forecasting — Applications; Marketing — New Products)**, M. K. BERKOWITZ and G. H. HAINES, 717.

Priority Ranking and Consensus Formation: The Case of Ties **(Utility/Preference — Theory; Utility/Preference — Scaling; Integer Programming — Applications)**, RONALD D. ARMSTRONG, WADE D. COOK and LAWRENCE M. SEIFORD, 638.

Priority Scheduling Rules for Repairable Inventory Systems **(Inventory/Production; Military — Logistics; Production/Scheduling — Job Shop, Stochastic)**, WARREN H. HAUSMAN and GARY D. SCUDDER, 1215.

Production Function for Organizations Doing Case Work, A **(Organization Design; Production Functions)**, MARTIN J. BECKMANN, 1159.

R & D Project Selection and Manpower Allocation with Integer Nonlinear Goal Programming **(Research and Development — Project Selection; Programming — Nonlinear, Applications; Programming — Integer, Applications)**, BERNARD W. TAYLOR III, LAURENCE J. MOORE and EDWARD R. CLAYTON, 1149.

Rejoinder: On "A Note on MRP Lot Sizing," EARLE STEINBERG and H. ALBERT NAPIER, 585.

Rejoinder to Professors Kadane and Larkey, JOHN C. HARSANYI, 124.

Relative Risk Aversion **(Utility/Preference — Theory)**, JAMES S. DYER and RAKESH K. SARIN, 875.

Renewal Theoretic Approach to Bias Reduction in Regenerative Simulations, A **(Simulation; Regenerative; Bias Reduction; Renewal Theory; Cumulative Process; Ratio Estimator)**, MARC S. MEKETON and PHILIP HEIDELBERGER, 173.

Reply to Professor Harsanyi, JOSEPH B. KADANE and PATRICK D. LARKEY, 124.

Resource-Constrained Project Scheduling with Time-Resource Tradeoffs: The Nonpreemptive Case **(Project Management — Resource Constraints; Programming — Integer Algorithms, Enumerative; Industries — Construction)**, F. BRIAN TALBOT, 1197.

Reswitching Property of R & D, On the **(Research and Development; Economics; Dynamic Programming Applications)**, TOM K. LEE, 887.

Shapley Value as Aircraft Landing Fees — Revisited, The **(Games/Group Decisions)**, PRADEEP DUBEY, 869.

Short Term Financial Planning under Uncertainty **(Finance — Working Capital; Programming — Stochastic)**, J. G. KALLBERG, R. W. WHITE and W. T. ZIEMBA, 670.

Significance of the Second Kind, On: Communication to the Editor, MILES KENNEDY, 337.

Simple Algorithm for Optimal Portfolio Selection with Fixed Transaction Costs, A **(Finance; Finance — Investments; Portfolio Selection)**, NITIN R. PATEL and MARTI G. SUBRAHMANYAM, 303.

Simulation Analysis of Tour-Shift Construction Procedures, A **(Organizational Studies — Manpower Planning; Production/Scheduling; Financial Institutions — Banks)**, VINCENT A. MABERT and CHARLES A. WATTS, 520.

Size and Administrative Intensity in Organizational Divisions **(Organizational Studies — Design)**, SPYROS K. LIOUKAS and DEMITRIS A. XEROKOSTAS, 854.

Sources of Bias in Assessment Procedures for Utility Functions **(Utility/Preference — Theory; Estimation; Information Processing)**, JOHN C. HERSHEY, HOWARD C. KUNREUTHER and PAUL J. H. SCHOEMAKER, 936.

SPACECRAFT for Multi-Floor Layout Planning **(Production/Scheduling — Materials Handling; Facilities/Equipment Planning — Layout; Networks/Graphs — Applications)**, ROGER V. JOHNSON, 407.

Stochastic Dominance: A Research Bibliography **(Stochastic Dominance; Decisions under Uncertainty)**, VIJAY S. BAWA, 698.

Stochastic Model of Consumer Behavior and Optimal Advertising, A **(Dynamic Programming — Control Theory; Marketing — Advertising/Promotion; Marketing — Buyer Behavior)**, CHARLES S. TAPIERO, 1054.

STRATPORT: A Model for the Evaluation and Formulation of Business Portfolio Strategies **(Business Strategy; Marketing Strategy; Business Policy)**, JEAN-CLAUDE LARRECHE and V. SRINIVASAN, 979.

Subjective Probability and the Theory of Games **(Game Theory; Rationality; Bayesianism; Subjective Probabilities)**, JOSEPH B. KADANE and PATRICK D. LARKEY, 113.

Subjective Probability and the Theory of Games: Comments on Kadane and Larkey's Paper **(Game Theory; Rationality; Bayesianism; Subjective Probabilities)**, JOHN C. HARSANYI, 120.

Survey of Partially Observable Markov Decision Processes: Theory, Models, and Algorithms, A **(Markov Decision Processes; Partially Observable; Survey)**, GEORGE E. MONAHAN, 1.

Systematic Approach to Nuclear Safeguards Decision-Making, A **(Decision Analysis; Nuclear Safeguards; Cost-Benefit Analysis)**, BRUCE R. JUDD and STEIN WEISSENBERGER, 289.

Theory, Models and Implementation in Financial Management **(Corporate Planning; Normative Finance Theory; Financial Modeling)**, J. MORRIS McINNES and WILLARD J. CARLETON, 957.

Toward Valid Measures of Public Sector Productivity: Performance Measures in Urban Transit **(Transportation — Mass Transit; Productivity; Philosophy of Modeling; Cost/Benefit Analysis)**, JOHN M. GLEASON and DAROLD T. BARNUM, 379.

Two-Product, Single-Machine, Static Demand, Infinite Horizon Lot Scheduling Problem, The **(Inventory/Production — Deterministic Models; Inventory/Production — Planning Horizons; Production/Scheduling)**, FAYEZ FOUAD BOCTOR, 798.

Use of Benefit-Cost Analysis in the Peer Review of Proposed Research **(Utility/Preference — Scaling; Cost Benefit Analysis; Research and Development — Project Selection)**, DAVID CARDUS, MARCUS J. FUHRER, ANNE W. MARTIN and ROBERT M. THRALL, 439.

User Involvement in Information System Development: A Conflict Model and Empirical Test **(Management Information Systems; Implementation; Conflict Resolution)**, DANA ROBEY and DANA FARROW, 73.

Using Lagrangean Techniques to Solve Hierarchical Production Planning Problems **(MRP Systems; Lot-Sizing; Hierarchical Production Planning)**, STEPHEN C. GRAVES, 260.

Using Simulation for Leadership and Management Research: Through the Looking Glass **(Leadership; Simulation)**, MORGAN W. McCALL, JR. and MICHAEL M. LOMBARDO, 533.

Value Added Taxes and Foreign Competition: Communication to the Editor, LAWRENCE BRISKIN, 1476.
